Dear Deborah Clark-Weintraub,

I object to Wells Fargo Settlement. I disagree for the following reason. I'm manic depressive. Wells Fargo action was one of the reasons for me having a nervous breakdown. I'm disabled & can't handle stressful situations. Their fee stressed me to the point of me snapping which lead to another breakdown. I was distraught since we are struggling to pay bills on a fixed income. I'm suing for mental distress & financial hardship as a result of their actions. We ALWAYS pay our mortgage on time even if we have to borrow from friends & family members.

Sincerely,

Janis Flakes
